MESSAGE FROM THE CLERK OF COURSE

Welcome everyone to the 2020 Roo Systems Australia Manumbar Rally.

A few words on behalf of the Clerk of Course and our Sponsor.

On behalf of the Brisbane Sporting Car Club we are delighted to be able to bring this event to fruition considering the vagaries that have taken place during this year. We almost made it in May this year but were beaten by the early onslaught of COVID-19.

Not only are we returning to Manumbar for this years event but we have a new naming rights sponsor Roo Systems Australia.

Roo Systems Australia under its new ownership and management has a proud history of supporting motor sport events through its owners and their personal involvement in the sport.

More about Roo Systems Australia and how we will support them will appear as we near the event.

We also welcome Innate Motorsport + Events as the naming rights sponsor to our final rounds of rally motorsport for the year. Adrian Coppin owner of Innate Motorsport is a well-known identity in our sport and we thank him for his support and sponsorship.

Upon returning to Manumbar this year's event will run from the Campdraft Grounds completing four stages, returning for a service and regroup then repeating those stages with completion of the event before dark. There will be the opportunity for a remote refuel location at the end of Stage 2 and later in the day at the end of Stage 6.

The roads are in excellent order with a new Stage of some 22kms in length with everything in it for competitors. Sadly due to COVID-19 restrictions there will be no Spectator Point.

We look forward to seeing you at Manumbar where there is very limited camping at the Campdraft Grounds with the Campdraft Association carrying out catering Friday night through to breakfast Sunday morning. Please support them as they are a small group helping our day to be a huge success.

Look forward to seeing you at Manumbar.

Don't forget to vote prior to the rally, as it is Queensland Election Day and you won't be able to vote at Manumbar.

Brad Hurford
Clerk of Course

IMPORTANT NOTICE TO COMPETITORS

The Road Book containing the route instructions for this event has been prepared by the event organisers on the basis of enabling crews to traverse the course. It has been prepared using non- competitive vehicles at relatively low speeds and has not been checked using competitive vehicles, or at average speeds in excess of 40km/h.

The instructions are the organisers interpretation of the course. The tulips or descriptions are not to be taken as an accurate or precise representation of the severity or otherwise of a description or any particular part of the course. In addition, given the methodology used in preparing the instructions, some items may not appear in the route instructions which may become a hazard to either or both the vehicle and crew.

The organisers issue a warning in the strongest possible terms that the instructions, including the tulips should not be used by crews to interpret or create what are commonly known as “pace notes”.

As is the usual practice in rallying, the competitive and liaison parts of the course traverse a mixture of roads including public and private roads through rural and populated areas. As you would expect, these areas contain animals, both wild and domestic, which may be found on the course during the event. In addition, the roads and tracks used may contain changes in direction and/or surface, which may or may not be in the instructions.

Accordingly, the organisers advise crews that they are totally and personally responsible for the manner and speed in which they traverse the course and ultimately their own and their vehicle’s safety. They should therefore take the above advices together with their experience, own abilities and vehicle into account before commencing any part of this event and traverse the course in such manner and speed at which they are comfortable given the risks involved.

Remember – motor sport is considered dangerous.
