Message from the Clerk of the Course

Dear Competitors,

Welcome to the **2026 SR Automotive Imbil Forest Rally Sprint**.

After the success of last year's two-day Rally Sprint format, I thought, *why not do it again?* This year, we have kept the popular format while making a few changes.

The event will be based at the **Imbil Showgrounds**, following a date conflict with the Deer Park event.

I have been working with my team to put together an event that will be both **challenging and fun**.

This year, you will tackle two stages that have not been used for the past **11 and 15 years**, giving everyone something new to experience. Following the fantastic event we had at Manumbar, we will also be including **two-night stages**, adding another challenge to the weekend.

I would like to thank the many officials who have volunteered their time and effort to make this event possible. Without their dedication, we simply could not run the event.

A special thank you also goes to **Stewart Reid and SR Automotive** for their continued support of the event and the Brisbane Sporting Car Club.

From myself and my team, we hope you enjoy the event, get behind the Rally Sprint, and have a fantastic weekend of competition.

We look forward to seeing you all at Imbil in October.

Yours in Rally,

Tony Kabel
Clerk of the Course

Important Notice to Crew Members

The Road Book containing the route instructions for this event has been prepared by the event organisers on the basis of enabling crews to traverse the course. It has been prepared using non-competitive vehicles at relatively low speed and has not been checked using competitive vehicles, or at average speeds in excess of forty kilometres per hour.

The instructions are the Organisers interpretation of the course. The tulips or descriptions are not to be taken as an accurate or precise representation of the severity or otherwise of a description or any particular part of the course. In addition, given the methodology used in preparing the instructions, some items may not appear in the route instructions which may become a hazard to either or both the vehicle and crew.

The organisers issue a warning in the strongest possible terms that the instructions, including the tulips should not be used by crews to interpret or create what are commonly known as “pace notes”.

As is the usual practice in rallying, the competitive and liaison parts of the course traverse a mixture of roads including public and private roads through rural and populated areas. As you would expect, these areas contain animals, both wild and domestic, which may be found on the course during the event. In addition, the roads and tracks used may contain changes in direction and/or surface which may or may not be in the instructions.

Accordingly, the organisers advise crews that competing crews are totally and personally responsible for the manner and speed in which they traverse the course and ultimately their own and their vehicle's safety. They should therefore take the above advice together with their experience, own abilities and vehicle into account before commencing any part of this event and traverse the course in such manner and speed at which they are comfortable given the risks involved.

Remember – motorsport is considered dangerous.
